ABOUT US

OUR MISSION

Our mission is to deliver exceptional refrigeration and air conditioning services to New Zealand. We aim to provide sustainable energy and efficient cooling and heating solutions that enhance comfort productivity and reliability.

ABOUT CHILLED STATUS

Chilled Status was established with a clear vision and passion for providing outstanding refrigeration, air conditioning & mechanical services. Since its establishment, our company has been dedicated to delivering reliable and high-quality solutions to meet the diverse needs of our valued clients.

We handle everything from installation, design, comprehensive maintenance contracts, 24/7 service break down & asset management.

Chilled Status operates with a strong focus on professionalism and customer satisfaction. We have a team of professionals dedicated to delivering high quality services and establishing long term relationships with our customers.

Proudly New Zealand Owned & Operated.

We strive to build long-standing business relationships founded on trust, reliability, and the consistent delivery of high-quality service and solutions.

COMMERCIAL REFRIGERATION

Chilled Status is recognised as one of Auckland's leading commercial refrigeration experts, bringing unparalleled expertise and dedication to businesses throughout the region. Our skilled team of specialists is well-versed in the complexities of commercial refrigeration systems, ensuring that we provide reliable solutions tailored to meet the specific needs of each client. With a focus on efficiency and excellence, we offer a comprehensive range of services, from installation to ongoing maintenance, to keep your refrigeration systems running smoothly. At Chilled Status, we are committed to helping your business thrive by providing the highest quality refrigeration solutions available in Auckland.

Service & Maintenance

We offer comprehensive contracts, designed to ensure regular maintenance on your equipment and our work is backed by highly trained engineers.

Refrigeration Installation

From concept to installation, we provide quality service, ensuring that from start to finish you are in good hands.

Refrigeration Design

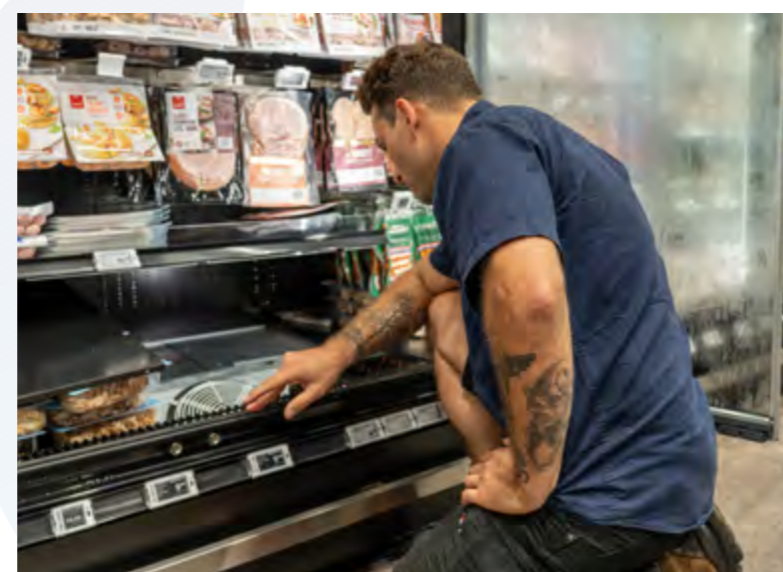

We provide complete custom solutions tailored to your requirements and have the right solutions for all designs.

Asset Management

Complete capital planning and management of key refrigeration & air conditioning assets.

Site audits on equipment can be offered also.

- Refrigeration Install
- Design & Build
- Refrigeration Servicing
- Cabinet Sales
- Refrigeration Maintenance

COMMERCIAL AIR CONDITIONING

Our business is a reliable commercial air conditioning company in the North Island, delivering exceptional service and expertise to businesses of all sizes. Our dedicated team of professionals is skilled in designing, installing, and maintaining efficient air conditioning systems tailored to meet the unique demands of commercial environments.

We understand the importance of a comfortable workspace, and our commitment to high standards ensures that your air conditioning system operates optimally, enhancing both productivity and comfort. With a focus on innovation and customer satisfaction, Chilled Status is your trusted partner for all commercial air conditioning needs, ensuring a cool and welcoming atmosphere for your employees and clients alike. Business relationships are what we strive for.

Service & Maintenance

We offer comprehensive contracts, designed to ensure regular maintenance on your equipment and our work is backed by highly trained engineers.

Site audits on equipment can be offered also.

- ✓ Air Conditioning Install
- ✓ Air Conditioning Servicing
- ✓ Design & Build
- ✓ BWOFF 12a
- ✓ PS3 & PS1

MAINTENANCE

We believe that preventative maintenance is the foundation of reliability, efficiency, and long-term asset performance. Our dedicated team delivers comprehensive maintenance solutions across Refrigeration, HVAC, Air Conditioning, and Electrical systems, ensuring our clients experience minimal downtime and maximum operational continuity.

We take a proactive approach - identifying potential issues before they become costly breakdowns. Every service is carried out by qualified technicians using industry-approved procedures, supported by our digital asset management system, Simpro. This allows us to track, record, and report on all maintenance activities with full transparency.

OUR MAINTENANCE - CHILLED STATUS

- ✓ **Preventative First Approach** - We prioritise planned, routine maintenance to extend equipment life and reduce unexpected failures.
- ✓ **Qualified and Experienced Technicians** - Our team dedicates time to know your equipment and understands what takes priority.
- ✓ **Digital Reporting & Asset Tracking** - All test results, maintenance records, and recommendations are documented in Simpro for easy review and audit.
- ✓ **Customised Schedules** - We tailor maintenance programmes to suit the specific needs of each site, taking into account asset age, usage, and environmental demands.
- ✓ **Fast Response for Corrective Work** - If issues are identified, we provide clear recommendations and rapid repair options to keep your operations running.
- ✓ **Key Account Management** - Regular 3 monthly meetings to go over your maintenance reports to ensure all are on the same page and a plan is put in place.

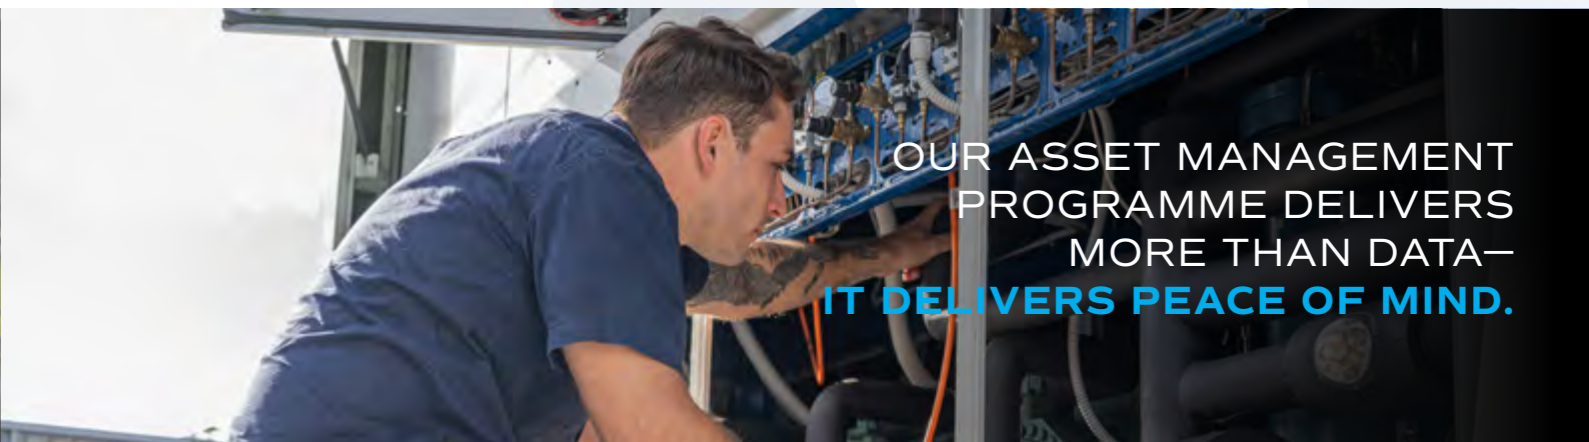

ASSET MANAGEMENT

Through our digital platform, Simpro, we capture detailed asset data - from installation and service history to test results, condition reports, and future maintenance requirements. This allows us to deliver transparent reporting and reliable insights that facilitates informed decisions.

Our approach goes beyond simply recording equipment details - we analyse and monitor the entire lifecycle of every asset, enabling our clients to make informed decisions backed by accurate data and professional insight.

KEY FEATURES OF OUR ASSET MANAGEMENT APPROACH

- ✓ **Comprehensive Asset Register** - Every asset is logged digitally with full specifications, service history, condition status, and compliance notes. This also ensures we can pre plan for the future of the store equipment.
- ✓ **Lifecycle Tracking & Planning** - We monitor equipment performance over time, identifying assets approaching end-of-life to support budgeting and replacement planning.
- ✓ **Digital Reporting & Transparency** - Real-time asset information, photos, and technician notes are available through our client reporting system, ensuring complete visibility.
- ✓ **Risk & Compliance Management** - Our process ensures your equipment remains compliant with industry and safety standards, reducing operational risks and potential downtime.
- ✓ **Preventative Maintenance Integration** - Asset management works hand-in-hand with our maintenance programmes to reduce failures, optimise efficiency, and extend equipment lifespan.

OUR ASSET MANAGEMENT PROGRAMME DELIVERS MORE THAN DATA—IT DELIVERS PEACE OF MIND.

CABINET SALES

We offer a wide range of high-quality refrigeration and display cabinets designed to meet the needs of supermarkets and restaurants. Whether you're upgrading your existing equipment or fitting out a new space, our cabinets combine durability, efficiency, and reliability to keep your products at the perfect temperature.

To provide maximum choice, we work with a variety of trusted cabinet suppliers both in New Zealand and overseas, ensuring a wide range of designs and styles to suit your store's needs.

TEMPERATURE MONITORING & ENERGY SAVINGS

We provide advanced Building Management Systems (BMS) that give clients complete control over their building operations, refrigeration, HVAC, energy consumption, and lighting. Our BMS solutions are designed to optimise efficiency, reduce operating costs, and provide real-time insights into the performance of your site's systems.

BMS technology allows clients to monitor and control multiple systems from a single platform, including:

- ✓ **HVAC & Refrigeration**
Temperature, airflow, and system operation monitoring.
- ✓ **Remote Dial In**
Allowing us to dial in to monitor, make changes and save on cost by not sending someone out.
- ✓ **Lighting**
Automated control, scheduling, dimming, and occupancy-based adjustments.
- ✓ **Energy Consumption**
Tracking electricity usage to identify inefficiencies and optimise performance.
- ✓ **Alerts & Notifications**
Instant alerts for system faults or energy anomalies.
- ✓ **Food Safety Audits**
We are able to provide full accurate detail on temperature per asset.

COMMERCIAL PROJECTS

We specialise in delivering complete commercial project solutions for a wide range of industries, including supermarkets, restaurants, schools, and hospitality venues. From initial design and planning through to installation, maintenance, and ongoing support, we ensure every project is delivered on time, within budget, and to the highest quality standards.

Our experienced team works closely with clients to understand their specific requirements, providing tailored solutions that combine efficiency, durability, and reliability. We manage all aspects of the project, including refrigeration, HVAC, air conditioning, and electrical systems, offering a fully integrated approach to commercial installations.

With strong relationships with trusted suppliers and industry partners, Chilled Status ensures access to the latest technology and equipment, helping our clients achieve operational excellence and maintain optimal performance across all their facilities.

CAPABILITIES - HVAC & REFRIGERATION

-  **Design & Build**

SUPERMARKET EQUIPMENT

Rex Industrial Equipment is a proud New Zealand-owned family business and a national manufacturer of specialised Materials Handling Equipment since 1968. Our success is built on a foundation of local craftsmanship, unwavering quality, and exceptional service. We support our customers across the country with dedicated expertise from eleven locations nationwide.

ESSENTIAL SUPERMARKET EQUIPMENT

Optimise internal logistics, guarantee safety, and streamline stock flow from dock to display with our high-capacity, integrated equipment.

- ✓ **Pallet Handling** (Manual & Powered): High-capacity trucks are the essential backbone for heavy lifting, ensuring fast, safe processing and minimal staff strain.
- ✓ **Stock Handling Trolleys:** Streamline replenishment using heavy-duty or space-saving nesting trolleys for efficient aisle fill-ups.
- ✓ **Order Picking Ladders:** Guarantee staff safety with robust, stable ladders for secure access to high shelving and accurate stock retrieval.
- ✓ **Self-Dumping Bins:** Simplify high-volume waste management in the back-of-house to improve site cleanliness and efficiency.
- ✓ **Side Stack Display Stands:** Mobile, high-capacity stands unlock flexible merchandising to maximise product visibility and drive impulse sales.

Trusted by major New Zealand retailers, our equipment enhances operations at Pak'nSave and New World locations nationwide, including new store fit-outs.
